

MEMORANDUM

DATE: April 06, 2022
TO: John O'Connor, Chairman, Derry Planning Board
FROM: Elizabeth Robidoux, Planning Assistant
SUBJECT: Regional Impact Recommendations

Please find this memo as a staff recommendation on the Regional Impact Determination for the Lot Line Adjustment Application for Cheryl & Douglas Kimball and Russell Parolisi, Jr., on the April 06, 2022 Planning Board agenda. Please review this under the "Other Business/Planning Director Updates" portion of the agenda.

Below, please find the general criteria considered by staff in making this recommendation:

1. Is the proposed development directly adjacent to a municipal boundary?
2. Is the proposed development located within 1,000 feet of any aquifer or surface waters that transcend municipal boundaries and will there be either a large water withdrawal (defined as 57,600 gallons by NHDES) or will there be indoor, outdoor, or underground storage of chemicals or other potential pollutants?
3. Is the proposed development creating a new road or a point of access between municipalities?
4. Is the project a proposed non-residential development that will generate 500 or more vehicle trips per day into an adjacent community as determined by the most recent published version of the ITE Trip Generation Manual?
5. Is the proposed development of 200 or more residential dwelling units where any portion of the development is within 1,000 feet of a municipal boundary?
6. Is the proposed development anticipated to have emissions such as light, noise, smoke, odors, or particles that may impact a neighboring community?
7. Will the project impact shared facilities such as schools (i.e., residential developments where Derry's students are tuitioned in another municipality), solid waste disposal facilities, or other utilities located in another community?
